EDUCATION

2007-2011: B. Tech. (IT)
Anna University, affiliated to Sakthi Mariamman Engineering College, Chennai, with an aggreate of 73.4%

CORE COMPETENCIES

- Enterprise Solutions
- Agile Methodology
- Cloud Computing
- Data Security
- System Integration
- Performance Optimization
- Quality Assurance
- Project Management
- Business Analysis
- Change Management

V. RAGHAVAN

TECH LEAD

PROFILE SUMMARY

- Demonstrate over 12 years of extensive IT expertise, with a focus on **design, development, and team leadership** in varied sectors including Finance, Shipping, Telecom, Intellectual, and Manufacturing, adept at addressing evolving needs and challenges.
- In the current assignment, led the modernization application in server less architecture **as Tech Lead at Tech Mahindra** through Agile methodology, ensuring timely delivery against outstanding company-wide support.
- In the previous assignment led the end-to-end development of products and applications with AI powered solutions and micro services architecture as a **Technical Lead at HCL Tech**, ensuring timely delivery against technical roadmaps and outstanding company-wide support.
- Insightful expertise in all aspects of **Project Management** with skills in directing project teams and maintaining high-quality deliverables within time and budgetary parameters; managed all phases encompassing planning, design, scope definition, estimation, resource administration, process management and compliance with quality standards
- **Notable success in managing multiple activities** starting from understanding customer requirements, identifying the right technology stack, deriving the right solution, feasibility study, implementation, process stabilization, performance monitoring, key metrics development, resource deployment, stakeholder reporting, solution planning, architectural design, database model creation, evaluation & solution implementation, scalability, risk assessment & mitigation, migration & transformation, managing version control and supporting after go-live
- Proven capabilities in **facilitating Scrum ceremonies** entailing daily stand-ups, release planning, sprint planning, sprint reviews, retrospectives, Scrum of Scrum, backlog grooming sessions, using JIRA, creating tasks/bugs, managing the Scrum board and generating sprint reports
- Effectively **removed impediments to ensure continuous process improvements** by effectively ensuring strategy deployment, cost optimization & business excellence
- Achieved the successful completion of the iDoRAN Product, earning the ERS Champion award and showcasing the iDoRAN automation product in AWS, AZURE, and HCL Tech marketplace, driving product visibility and market reach

TECHNICAL SKILLS

- **Full Stack:**
  - Java Technologies (J2EE, Servlets, JSP, JDBC, Struts 2.0, Spring MVC, Spring Boot)
  - Python (Basic Knowledge, Lead experience for providing better solution to team)
  - UI (Bootstrap, HTML5, CSS, jQuery, JavaScript, Ajax, JSON, Angular v14.0, Node JS v20.0)
  - ORM such as Hibernate as well JPA Entity.
  - RDBMS Database (PostGreSQL and Oracle)
  - Build Tools such as Ant, Maven, Gradle
  - AWS Cloud Infrastructure (EC2, RDS, S3, IAM, Cloud Front, EBS, ECS, Fargate) as well on-prem infrastructure (Linux desktop machine)
  - Messaging Queue such as Apache Kafka, AWS SQS
  - App server such as Apache Tomcat, JBOSS
  - Orchestration Layer i.e., Docker
- **DevOps:** DevOps such as JIRA, Jenkins, GIT, SVN
- **Techniques:** Software Development LifeCycle, Monolithic and Micro Service Architecture
- **Tools and Software:** Spring Tool Suite, Eclipse - Luna, Visual Studio Code, PostMan, TIBCO Jasper Report, DBeaver, SQL Developer

PROFESSIONAL AFFILIATIONS

- ERS Champion award during JAS 2021 quarter for successful completion of iDoRAN Product – Invoice Extraction service in shorter span of time with AI team collaboration.
- In 2023, iDoRAN automation product is publicly displayed in AWS as well AZURE marketplace and HCL Techportal.
- Received PCSAT Score 7/7for VDX Application from Japan Customer, JGC Corp during the period April – Nov2023
- Received Work Appreciation from Nissan North America Customer in Daily Scrum meeting
- Received Pat on the back Tech M award on September 2025 and January 2026 for current project.

COURSES AT UDEMY

- Design Thinking on Jan, 2023
- AWS Cloud Practitioner on July, 2023
- Spring Framework Master Class - Java Spring the Modern Way, Dec 2023
- Master Micro services with Spring Boot, Docker, Kubernetes, Jan 2024
- GCP - Cloud Digital Leader

WORK EXPERIENCE

Tech Mahindra, Chennai, India | Tech Lead | June 2024 – till date

Responsibilities:

- Collaborated with stakeholders and project teams to ensure timely delivery against technical roadmaps, driving revenue growth and providing outstanding company-wide support.
- Participated daily stand-up meetings to track team progress in agile methodology, preparation of sprint estimation stories and facilitated the delivery of customer project
- Involved in Major version upgrade (Java 11 to 17) to overcome the Veracode Security vulnerable third party components and Solving Cognitive Complexity metrics through SONAR to identify complex code that should be refactored to improve readability and maintainability. This is to ensure code to be secure in production environment.
- Interacted with performance testing teams to ensure the successful release of the Monroney label modernization application.
- Participated AWS Q Developer, Claude and AWS Kiro Training which is organized by Tech Mahindra
- To pass security compliance frameworks like AWS Security Hub (Control [ECS.5]) or Prowler, you must restrict your Amazon ECS containers to a read-only root filesystem. Handled Critical NodeJS application with db2 communication and running successfully in production.

TechM Internal Certification:

- AI White Belt (Google Cloud, Generative AI)
- Manufacturing process

Achievements:

- Lead a team of five to deliver Monroney modernization application from legacy mainframe system, resulting in a 10% cost savings. Achieved 2nd performance rating during 20242025 Annual as well 2025-2026 midterm period based on project deliverables, client satisfaction, and team collaborations.

HCL Tech, Chennai, India | Technical Lead | Feb 2021 - Nov 2023

Responsibilities:

- Spearheaded the complete development of the iDoRAN product, integrating a customizable workflow and AI-driven solutions to meet market demands effectively.
- Collaborated with stakeholders and project teams to ensure timely delivery against technical roadmaps, driving revenue growth and providing outstanding company-wide support.
- Worked on various projects from scratch based on client SoW for VDX Application (Client: JGC Corporation, Japan), Customer Spec Extraction (Client: Baker Hughes, U.S.A.), and based on HCL stakeholder requirement on IDoRAN Product – Powered by HCL Technologies, Chennai, India
- Conducted daily stand-up meetings to track team progress in agile methodology and facilitated the delivery of customer projects.
- Interacted with testing teams to ensure the successful release of the document automation extraction service.
- Provided technical leadership across IT service teams, ensuring outstanding company-wide support.

Achievements:

- Championed the successful completion of the iDoRAN Product, earning the ERS Champion award.
- Showcased the iDoRAN automation product in AWS, AZURE, and HCL Tech marketplace, driving product visibility and market reach.
- Received a PCSAT Score of 7/7 for the VDX Application from Japan Customer, JGC Corp, recognizing exceptional performance and customer satisfaction.
- Managed a team of 5 to deliver iDoRAN resulting in a 10% cost savings and a 2nd performance rating two consecutive period. Awarded top 2nd performance rating based on project completion, client satisfaction, and team collaboration.

PERSONAL DETAILS

Date of Birth: 24/03/1989

Languages Known: English, Tamil

Current Address: # 14/21, NY Enclave, S3 Flat, 2nd Floor, Veera Pandia nagar, 2nd Street, Choolaimedu, Chennai – 600094.

Passport Number: V1820139

Date of Expiry: 28/07/2031

Saksoft, Chennai, India | Project Leader | Mar 2018 - Feb 2021

- Orchestrated the end-to-end UI Modernization project, surpassing client expectations for software function, performance, and features, showcasing adaptability and commitment to exceeding client satisfaction.
- Collaborated with various cross-functional teams and internal stakeholders

Senior Software Engineer | Web Synergies (Client: Verizon), India | Jun 2016 - Dec 2017

- Delivered end-to-end UI Modernization projects for telecom wired domain, ensuring seamless integration and improved performance.
- Supported and mentored team members, facilitating application-related UI, Java, and RDBMS tasks.
- Engaged in collaborative efforts with diverse cross-functional teams, various stakeholders and interacted with the US Clients for fixing production issues.
- Worked on Agile sprint and attended standup meeting with team members

Software Engineer | Paragon Dynamics, Chennai, India | Jun 2013 - May 2016

- Developed and delivered end-to-end applications for finance, inventory, shipping and other cross-functional domains; worked on various projects from scratch based on Paragon stakeholder for Accounts Application (Client: NFA, Chennai), NVOCC (Client: Mumbai) and HIS ERP Application (Client: Bihar hospital).

Web Developer | Animation Focuz, Chennai, India | Nov 2011 - Oct 2012

- Designed web pages and email templates using user interface technologies, enhancing the aesthetics and functionality of the website.

****Please Refer to the Appendix for Projects Undertaken****

Appendix

Projects Undertaken:

1. **Monroney Web Application (Client: Nissan North America, USA)**
   - Duration: June 2024 – Till date
   - Role: Tech Lead
   - Responsibilities: Requirement gathering, Development, Scrum Meetings, Process activities, Offshore Lead
   - Technologies: Java 1.7, Node JS v20, Angular v14, Typescript, PostgreSQL, DB2, AWS Cloud Services (ECS, S3, Fargate, API Gateway, Cloud Watch), Mainframe

2. **VDX Application (Client: JGC Corporation, Japan):**
   - Duration: March 2023 – September 2023
   - Role: Technical Lead
   - Responsibilities: Requirement gathering, Architecture design, Team Leadership, Deployment, API Development, Scrum Meetings.
   - Technologies: Java 1.8, Spring Boot, JPA, Rest API, Bootstrap, Typescript, Angular 11, Node JS, PostgreSQL, Gradle, Docker, Python, AWS Cloud Services (EC2, ECS, Fargate, API Gateway, Cloud Front, S3 Buckets, IAM, Cloud Watch).

3. **Customer Spec Extraction (Client: Baker Hughes, U.S.A.):**
   - Duration: June 2023 – August 2023
   - Role: Technical Lead
   - Responsibilities: Requirement gathering, Architecture design, Team Leadership, Deployment, API Development, Scrum Meetings.
   - Technologies: Java 1.8, Spring Boot, JPA, Rest API, Bootstrap, Typescript, Angular 12, Node JS, PostgreSQL, Gradle, Apache Kafka, Apache Tomcat, Python.

4. **IDoRAN Product – Powered by HCL Technologies, Chennai, India:**
   - Duration: Feb 2021 – July 2023
   - Role: Technical Lead
   - Responsibilities: Project Management, Requirement gathering, Architecture Design, Team Leadership, Deployment, Scrum Meetings.
   - Technologies: Java 1.8, Spring Boot, JPA, Rest API, Bootstrap, Typescript, Angular 12, Node JS, PostgreSQL, Gradle, Python.

5. **Manchester United (Client: Australia):**
   - Duration: May 2021 – July 2021
   - Role: Technical Lead
   - Responsibilities: Requirement Gathering, Architecture Design, Team Formation, Project Estimation
   - Technologies: Java 1.8, AWS Service (Lambda, API Gateway, Cloud Front). Bootstrap, Javascript, Angular 12, PostgreSQL, Python.

6. **Brightstar:**
   - Duration: March 2021 – Sept 2021
   - Role: Technical Lead
   - Responsibilities: Development, Support/Mentor to the team.
   - Technologies: Java 1.8, AWS Lambda, Bootstrap, Javascript, Angular 11, PostgreSQL, Python.

7. **Intellect Info Application (Client: De penning & De penning, Chennai, India):**
   - Duration: March 2018 – Feb 2021
   - Role: Developer / Module Lead
   - Technologies: Core Java 1.7, Spring, Struts 2.0, EJB, Hibernate, RESTful Webservices, Java server pages, bootstrap, javascript, jQuery, AJAX, Oracle, JBOSS, TOAD.

8. **BGW – Broadband Gate-Way (Powered by Verizon):**
   - Duration: June 2016 – Dec 2017
   - Role: Developer / Module Lead
   - Technologies: Core Java, Spring REST Services, JSP, Javascript, jQuery, jQuery Datatable, AJAX, Oracle, jUnit, Jenkins, Freemaker

9. **Feedertech - Shipping Domain (Client: Simatech Shipping LLC, Dubai, U.A.E):**
   - Duration: July 2015 – May 2016
   - Role: Software Engineer
   - Technologies: Ubuntu, Tomcat, JBoss, Eclipse Luna, Java 1.7, Spring, Angular Js, jQuery, Bootstrap 3.3.0, Oracle and PostGreSQL.

10. **HISERP - Hospital Domain (Client: Bihar, India):**
    - Duration: July 2015 – Dec 2015
    - Role: Software Engineer
    - Technologies: Ubuntu, Tomcat, Eclipse Luna, Java 1.7, Spring, JSP, Angular Js, jQuery, Bootstrap 3.3.0, PostGreSQL.

11. **Accounts and Inventory Application (Client: NFA International, Chennai, India):**
    - Duration: Sept 2014 – Aug 2015
    - Role: Software Engineer
    - Technologies: Ubuntu, Tomcat, Eclipse 3.5, Java 1.7, Struts 2, JSP, JavaScript, Bootstrap 2.3.2, jQuery, JQGrid, PostGreSQL, Jasper Studio 6.0.2.
